FAQ

The signatory for my system is a previous tenant/owner, how do I update the signature?

*You must provide official documentation to us which proves your residence at or use of the address in question, e.g. a rates notice or lease agreement which shows your name listed at the address. **If your property is managed by a real estate agent or an owner's corporation, you must contact them directly for additional keys.***

How do I find the system number and key reference for my key?

See diagram:
